

My name is Gail Lelyveld. I am an actress and a concerned citizen. I have mainly been involved in community theatre & extra work. I am currently researching a one person show.

I think the FCC should develop a definition of local programming because it would form basis for community for people to find out what is happening in their community. Channel 12 Cablevision is a good example. It allows people to learn what is happening locally as far as news, sports, entertainment & traffic.
